

# Making Slime Instructions

1. Take 25 ml of PVA Glue and add to the plastic cup.
2. Measure out 25 ml of water and add to the plastic cup and PVA Glue and stir well.
3. Add a few drops of food colouring to the glue mixture and stir.
4. Slowly add 20 ml of borax substitution solution into dilute glue a little at a time, and stirring vigorously.
5. Wearing disposable gloves remove the slime from the cup and knead it thoroughly to mix the contents completely. Roll the slime around in your hand, gently squeezing the material to remove air bubbles at the same time.

Alternatively, place the slime in a plastic bag and mix and squeeze the mixture from outside the bag.

6. Test the properties of your slime in the following ways.

Pull the slime apart slowly. What happens?

Pull the slime apart sharply and quickly. What happens?

Roll the slime into a ball and drop it on to the bench. What happens?

Place a small bit of slime on the bench and hit it hard with your hand. What happens?
